LYNCH PROBABLY GETS PLAY HOUSE

Well Known Theatrical Man Made
Anderson People Two Splendid Propositions

The outlook for Anderson's new theatre is decidedly brighter and more roseate this morning than it has ever been before since the agitation for an amusement place for Anderson was first started. This is due to the visit of S. A. Lynch, a well known theatrical man, owning and operating a string of theatres throughout the Southern States. Mr. Lynch told a reporter for The Intelligencer last night that everything he saw in Anderson impressed him favorably and that he was surprised at the bustle and activity of the city.

Porter A. Whaley, secretary of the Anderson Chamber of Commerce, went to Asheville, N. C., Thursday to confer with Mr. Lynch and some of his associates in regard to the local theatrical undertaking and Mr. Lynch was so favorably impressed that he decided to come to Anderson to look over the field and see conditions for himself. He arrived in the city last night at six o'clock and shortly thereafter a meeting of the board of directors of the Chamber of Commerce was called.

The various phases of the situation were considered and discussed by the members of the board and Mr. Lynch and the matter gone into thoroughly. The theatrical man made the local people two propositions, one that he would buy out their entire holdings in the company and operate the theatre on his own independent basis or that he would assume the management of the place with a lease for a certain number of years. Both of these propositions carried the understanding that Anderson would be put on the same circuit as Asheville, N. C., Columbia, Charleston and Macon, Ga., assuring Anderson of attractions equally as good as any making the Southern trip during the year.

While no definite action was taken last night on either of the propositions made by Mr. Lynch, it was understood last night that they were both regarded with favor by the Anderson men and that in all probability one of the two would be accepted.

Mr. Lynch is associated in the theatrical business with Jake Willis and they operate theatres in Atlanta, Birmingham, Augusta, Columbia, Savannah, Charleston and several other large Southern cities and they book nothing but the best attractions. After completing his conference with the directors Mr. Lynch stated that he would like to come to Anderson to see the theatre possibilities here are quite evident and he believes that a theatre could be made a paying undertaking. He left Anderson this morning at six o'clock for Jacksonville but said that he would be back here within the next ten days, at which time it is hoped that the deal can be consummated and preliminary preparations for the erection of the theatre be put under way.

Livingstone

Most cheap pianos are more expensive than high priced ones. What little musical virtues they have at first tinkles out in a few months. The Livingstone is the least expensive piano ever offered in any market because it is a high priced piano sold at a low price. It gives you good music that will last, at a price that puts it within the reach of all. The more you investigate this statement, the more certain you are to prove to your own satisfaction that this is true.

Our Windows Always Bright And Clean

By MOSS.

THE value of a piece of real estate is measured by the number of people who pass it daily. The corner of Main and First streets, Atlanta, is not as valuable as the corner of Broadway and Wall street, New York city.

The value of a show window is measured by the number of people who stop in front of it daily.

This paper is a HUGE SHOW WINDOW.

Thousands stop in front of it and look in.

Are YOUR goods displayed therein for the observation of these thousands? Do you think it pays for them not to see your goods?

Great department stores in New York, Chicago and such cities pay big salaries to expert window dressers. Thousands daily troop in front of their windows, attracted by the offerings so attractively displayed. These same stores spend fortunes for page after page of window display advertising.

Would they do either unless it was good business?

Call on our advertising department RIGHT NOW for TIPS ON DISPLAY ADVERTISING. Let us dress up a window for you in this paper.

ELKS ARE COMING FROM OVER STATE

District Deputy Says That Every One of Eleven Towns Will Send Large Delegations

Anderson is to have the pleasure this year of entertaining the "Best People on Earth" when the State Association of the Benevolent and Protective Order of Elks of South Carolina will gather here. The association is to meet some time in May, the exact date to be announced later, although it is generally understood that the association will convene near the close of the month.

Secretary Wolfe of the Anderson lodge No. 1296 yesterday received a letter from Louis I. Cary, district deputy and grand exalted ruler for South Carolina, in which it was stated that every one of the 11 lodges of the state would send large delegations here to the convention. Mr. Cary asks for information as to when the association would convene. The convention of the State association prescribes that the convention must be held in the month of May but leaves the exact date for the entertaining lodge to set.

It is hoped that it may be possible for the local lodge to finish the splendid new Elks home which it is to erect before the time for the State Association and therefore the date will probably be placed as late in May as possible.

In his letter yesterday, Mr. Cary said that Gaffney lodge No. 1305 and Spartanburg lodge No. 1310 had both become members of the state association since the last convention was held and that both these lodges would send large delegations to Anderson. All told, it is expected that there will be fully 200 Elks here for the event, many of the lodges arranging to charter Pullman cars for the trip.
